The industrial make-up table offers the maximum performance, capacity and flexibility in the production of confectionary products. Thanks to its high performance, solid construction allowing intensive work cycles, the highest standards of hygiene and high precision of operation, this industrial version of the make-up table is aimed at the most demanding bakery industry with high production standards and a wide range of products.

The make up table Mod. Canol-Line Industrial is equipped with a pneumatic or electric guillotine with high industrial construction standards that allows various types of cutting blades or dies to be fitted, even large sizes, to obtain a wide range of product shapes.

The industrial make-up tables are PLC-controlled and programmed via touch screen with the possibility of storing and recalling programmes and parameters to manage the various work functions.

Some available accessories are:

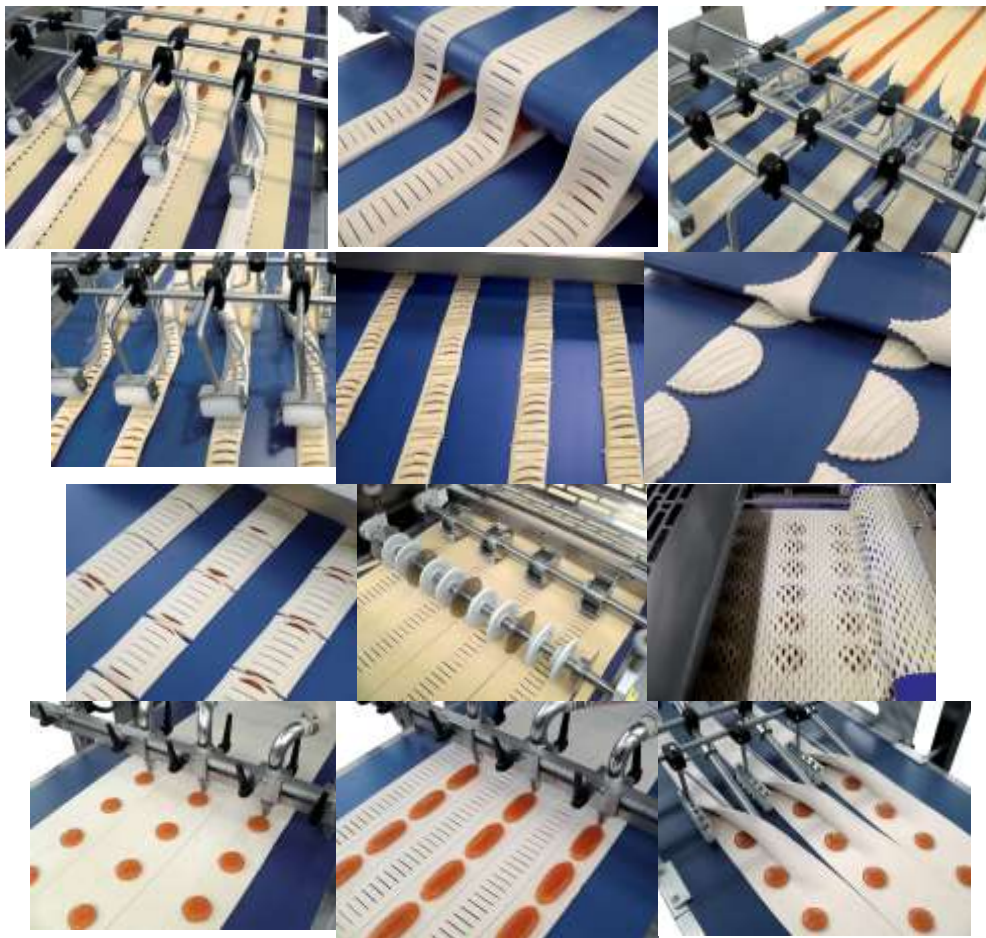

- Pneumatic or electric guillotine
- Electric screw depositors with 4 to 12 outputs
- Pneumatic or electric depositors
- Gauging roller with flour duster
- Scraps recovery belt

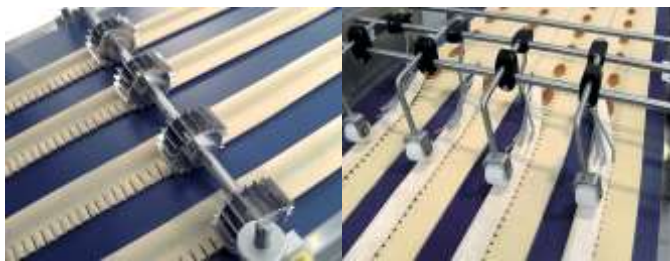

- Wire mesh conveyor with rotating disks humidifier and sugar or seed dispenser
- Revolving upper belt
- Spreading conveyor
- Product panning system
- Other accessories upon customer request

As in the TOP version , the INDUSTRIAL version of the make up table features the elevated position of the electrical cable duct with plugs for connecting all accessories and components controllable from the touch screen control panel and managed by the PLC. These production lines are available in standard versions with useful widths of 600 mm , 800 mm , 1200 mm.

Technical features:

- Innovative technology
- High productive performance line
- Flexible design for a wide product range
- High reliability
- Industrial structure for intense working cycles
- The motors are controlled by electronic speed variators
